WASHINGTON, D. C., November 3 .-The following proclamation was issued yesterday by the President of the United States of America:

States of America:

A Proclamation—The American people have always abundant cause to be thankful to Almighty God, whose watchful care and guiding hand have been manifested in every stage of their National life guarding and protecting them in time of peril and safely leading them in the hour of darkness and danger. It is fitting and proper that a nation thus favored should on one day in every year, for that purpose especially appointed, publicly acknowledge the goodness of God and return thanks to Him for all His grachous gifts. Therefore, I, Grover Cleveland, President of the United States of America, do hereby designate and set apart Thursday, the 2-th of November, instant, as a day of public thanksgiving and prayer, and do invoke the observance of the same by all the people of the land. On that day let all secular business be suspended and let the people assemble in their usual places of worship and with prayer and songs of praise devoutly testify their graditude to the Giver of every good and perfect gift for all that he has done for us in the year that has passed; for our preservation as a united Aution and for our deliverance from the shock and danger of political convulsion; for the blessings of peace for our safety and quiet, while wars and rumors of wars have agitated and afflicted other nations of the earth, for our security against the scourge of pestilence which in other lands has claimed its dead by thousands and filled the streets with mourners; for the plenteous crops which reward the labor of the husbandinen and increase our nation's wealth, and for the contentment throughout our borders which follows in the train of prosperity and abundance. And let there also be on the day thus set apart a reunion of families, sanctined and chastened by tender memories and associations, and let the social intercourse of friends with pleasant reminiscences renew the ties of affection and strengthen the bonds of kindly feeling. And let us by no means forget, while we give thanks and enjoy the comforts which the p

The friends of the Administration insist that the victory in New York is a splendid indorsement of 'resident Cleveland's policy. Jud. Such and similar expressions are heard frequently among President Cleveland's supporters. Second Comptroller Maynard, who returned from New York yesterday morning, thinks it a mistake to call the result in New York a "straight Democratic victory," inasmuch as New York is such a close State that there can not be a straight victory for either party. There is, he thinks, an Independent vote of 75,000, composed of both parties which can always decide the result.
